"*The Little Prince*" Website

Goals:

- Showcase key themes, quotes, and visuals.
- Create an interactive, user-friendly experience website for the users.
- Apply web development skills from W3Schools, including **HTML**, **CSS**, and **JavaScript**.

Website Features:

- **Homepage**:
    - Introduction to *The Little Prince* with a minimalistic captivating design.
    - Navigation to explore sections about the story, quotes, and gallery.
- **Sections**:
    - Showcasing the connection between the novel and the 2015 movie, using a side-by-side slider for visuals.
    - Famous quotes paired with hover-over animations.
    - Interactive Quiz: A simple, fun quiz about *The Little Prince* for user engagement.
- **Footer**:
    - Contact information, Quick links, and Social media links for inquiries.

Design and Development Plans:

- **HTML** to structure the website, including headers, paragraphs, and sections.
- **CSS** animations and transitions.
- **JavaScript** side-by-side image slider for a section.
- Implement a basic quiz with interactive feedback.
- Ensure responsiveness using CSS media queries to make the website mobile-friendly.
